TRUE BEAUTY HAS  
THE POWER TO  
INSPIRE AND ELEVATE.  
IT IS TIMELESS, AS  
ARE THE ARTISANS  
WHO POUR HEART  
AND SOUL INTO  
ITS CREATION.

A fiercely independent spirit and a rich and prestigious history define Aston Martin as truly unique in the automotive world.

## A RICH HISTORY, AN EXCITING FUTURE

Unrivalled prestige, unequalled craftsmanship, uncompromising standards. For their vision of 300 Biscayne Boulevard Way in downtown Miami, Aston Martin partnered with renowned developer G&G Business Developments LLC to translate its legendary design into an exclusive real estate venture. The result is a prestigious, one-of-a-kind building that represents the pinnacle of elegant living.

## THE ART OF CRAFTSMANSHIP

"In this, our first residential development, the interiors are inspired by Aston Martin, but take into consideration Miami's tropical environment. Our design language is based on beauty and the honesty and authenticity of materials. It's simple and pure and it has an elegance attached to beautiful proportions. We are incorporating Aston Martin's DNA through subtle details and fine craftsmanship, with an emphasis on comfort. This building is for people who appreciate the finest quality and craftsmanship, who love the feeling of something that is timeless."

MAREK REICHMAN  
EVP and Chief Creative Officer  
Aston Martin

## TIMELESS LINES, EXTRAORDINARY VISION

“Looking at the city of Miami and its powerful connection with the sea, the idea of smooth waves came instantly to our minds. The ripple of the water and the soft lines of its coastline made us wonder how to create a connection between architecture and Miami’s distinct shapes. The work of carving a new niche in this city led to the creation of a luxurious Residential Tower that speaks in the language of the ocean - inspired by the rush of the breeze and the sail of a boat. Aston Martin Residences at 300 Biscayne Boulevard Way achieves an exquisite encounter between sea, city and wind.”

ASTON MARTIN

Gaydon is the birthplace of all contemporary Aston Martins. It is the passion and pride of our workforce, their meticulous execution of every detail that defines an Aston Martin. To convey the effort, skill and determination of our craftsmen and women or their pride when another piece of our unique artwork is ready for its owner is almost impossible. To see the Gaydon production facility in action is to know that every car and our future is in safe hands.

Headquartered in Miami, G&G Business Developments is a luxury Real Estate company recognised for quickly establishing success in the global market, attracting investors seeking well-funded, innovative projects and delivering exceptional results. G&G Business Developments is managed by its owners who contribute their solid management knowledge, strategic business vision, and the financial support to nurture new Real Estate projects.

Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls between units and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the “Unit” set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. Measurements of rooms set forth on this floorplan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cut outs or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floorplans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development.
