ORAL REPORAL REPRESENTATIONS CANNOT BE RELIED UPON AS CORRECTLY STATING THE REPRESENTATIONS OF THE DEVELOPER. FOR CORRECT REPRESENTATIONS, MAKE REFERENCE TO THIS BROCHURE AND TO THE DOCUMENTS REQUIRED BY SECTION 718.503, FLORIDA STATUTES, TO BE FURNISHED BY A DEVELOPER TO A BUYER OR LESSEE. This is not intended to be an offer to sell, or solicitation to buy, condominium units to residents of any jurisdiction where prohibited by law, and your eligibility for purchase will depend upon your state of residency. All plans, features and amenities depicted herein are based upon preliminary development plans and are subject to change without notice in the manner provided in the offering documents. This project is being developed by N Flagler Drive Developer, LLC, which was formed solely for such purpose. SAVANNA is a proven owner, operator, developer and institutional fund manager that has been in business for 30 years, during which time it has invested in and developed over 17 million square feet of real estate. Other parties affiliated with the development of this project include the MacFiggart Family Partnership and the Haymes Investment Company, which has been in business for over 100 years, as well as Haymes Investment Company and Brandon River, which were instrumental in putting under contract several of the parcels within the assemblage that created the Olara development site. Stated dimensions are measured to the exterior boundaries of the exterior walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is described on Exhibit 3 to the Declaration. Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room (e.g. if the room were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.
