The Building

THE RESIDENCES AT

"The shape of this building, its sinuous qualities inspired by the natural elements, brings a real sense of life to this part of Miami. This isn't just another tower; it has an inner energy which I find fascinating."

ACPV is an architectural and design office with a holistic approach. ACPV looks to stimulate a new and different way of experiencing space; an art of living, with a unique micro and macro perspective. Architecture that evokes emotion, stimulates intellect, reflects qualities of life. Architecture which engages people.

Entwining the arts of architecture and interior design, ACPV creates lasting, elegant structures across the globe from headquarters in Milan. The concept of liveability continues to permeate every aspect of ACPV's work: spaces conceived as the connecting matter of a city, binding together streets, public spaces, services, nature, and, most importantly, people.

With more than 150 professionals on its roster, the practice's work has gathered countless awards across Europe, Asia, the Middle East and North America, with recent projects including Bulgari hotels in Paris and Rome, residential towers in Taiwan, a major urban regelation in Milan and oceanfront residences in Miami Beach.
