Casa  Tua

Lifestyle Curation

In 2001, Casa Tua Miami Beach was created as a welcoming place for friends, family and guests from around the world, where simplicity would meet sophistication, and individuals with a zest for life would come together. Casa Tua has since expanded with locations in Aspen and Paris, as well as our Italian kitchen, Casa Tua Cucina.

Born in Padova, Italy, founder Miky Grendene started his career in Milan in the late 1980s, moving to Miami in 1989, where he was part of the resurgence of South Beach. With more than 30 years experience in real estate and hospitality, Grendene and his wife, international model Leticia Herrera, have used their impeccable style to establish Casa Tua as a bespoke lifestyle brand backed by a philosophy of passion, love, sustainability and philanthropy.

With a desire to create something of lasting value, our goal is to use Casa Tua as a platform to draw attention to global issues by creating awareness through the friends and family of Casa Tua, all around the world.

From a curated art program, an exclusive event calendar and incredibly personal service, Casa Tua provides an intimate environment for a life well-lived. However, the heart of Casa Tua will always be the intimate community which our members and guests create very day. With that community, we at Casa Tua hope to create something of lasting value.

m²atelier

BONELLI . RADOVIC

Interior Designer

m2atelier is the architecture and design studio founded in Milan by the duo Marco Bonelli and Marijana Radovic, a couple in life and work.

Born from the fusion of the two founders' previous activities, the atelier brings together complementary experiences, cosmopolitan perspectives and multidisciplinary categories. The perimeter of its research is very broad and embraces different scales and contexts: architecture, interior design, fashion retail and product, with a distinct predilection for yachting.

The numerous and consolidated collaborations with some of the main global players in their respective fields, together with a long list of extremely significant projects and clients located everywhere on the planisphere, make m2atelier an authoritative signature on the international design and architecture scene.

The search for the essential involves all creative processes, materials, human resources, energy, even logistics. Every aspect of the workflow is centered on the idea of Sustainable Minimalism, achieved through the rigorousness of the creative system and the efficiency of the output. A perfectly functioning strategy at every stage of the project, which allows m2atelier to minimize waste at every level by producing conscious and sustainable architecture and design.

ARQUITECTONICA *GEO*
RESILIENT LANDSCAPES

Landscape Architect

Founded in 2005, ArquitectonicaGEO is an award-winning design studio specializing in landscape architecture, planning, and urban design. ArquitectonicaGEO is led by Laurinda H. Spear and Margarita Blanco, two women steeped in architecture, has elevated the conversation about the important role landscape architecture plays and the contributions it can make in the face of climate change and sea level rise.

Our projects address not only ecological objectives, but also add community value and elevate the return on investment of our clients by improving performance and livability. Our approach is clear. To create innovative and bold solutions that respond to the existing conditions of each site and are adaptable to climate change and sea level rise, all while restoring biodiversity and improving the human experience. Mixing resiliency with beautiful functional landscapes has created a level of awareness in communities and the world at large where the understanding of nature being incorporated into the built environment is a priority.

ArquitectonicaGEO works in close collaboration with clients, architects, planners, engineers, developers and construction professionals to create aesthetic and functional design solutions. The international, multi-disciplinary and multi-cultural richness of our firm provides the expertise to examine projects from all angles and the agility to respond to changing issues of global concern.

All depictions of appliances, counters, soffits, floor coverings, accessories, furniture, fixtures, and all other items of decoration are strictly for illustrative and display purposes only and is intended to act as an example to assist purchasers in visualizing a fully furnished unit. Such depictions should not be relied upon as a representation of the final product. All such items will not be included with the unit unless otherwise provided for in the purchase and sale documents and are subject to changes or substitution without notice. Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development.
