These drawings are conceptual only and are for the convenience of reference. They should not be relied upon as representations, express or implied, of the final detail of the residences. Units shown are examples of unit types and may not depict actual units. Stated square footages are ranges for a particular unit type and are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the area that would be determined by using the description and definition of the unit set forth in the declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components). Note that measurements of rooms set forth on this floorplan are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regards for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change. All depictions of furniture, appliances, counters and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit. Said items are only included if and to the extent provided in your purchase agreement.

Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change. All depictions of furniture, appliances, counters and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit. Said items are only included if and to the extent provided in your purchase agreement.

# HOMESHARE

Vida HomeShare combines a studio residence adjacent to a one or two-bedroom residence featuring adjoining entryways. The standard occupancy is up to 10 adults.

The design of the floor plan below details a common foyer which enables the residence owner to transform the residence to guests separately as a one-bedroom residence, a two-bedroom residence, or when fully combined, as an executive three-bedroom residence. This flexibility of homesharing is invaluable because it allows the owner to utilize the residence in three different ways.

# THE VISIONARY

Urbana's focus is on the acquisition and redevelopment of existing value-add Class "A" commercial real estate properties across the United States.

Urbana actively pursues both the development of strategically-located commercial sites and redevelopment of existing value-add commercial properties that are in need of renovation, repositioning, and/or wholesale re-adaptation. While the strategy pursued with each property may differ, the firm's investment approach is uniform: underwrite each prospective investment conservatively in order to minimize downside risk and maximize profitability for both the firm and its investment partners.

This approach, which is informed by a keen understanding of real estate market trends, an eye for optimizing the capital structure of each investment, an ability to keep costs under control, and a highly-capable property management team, has enabled the firm to reliably deliver Class A properties to institutional investors when our value-enhancing efforts are completed.

Urbana both develops and redevelops strategically-located commercial properties in the United States and around the world.

As a developer, Urbana seeks out strategically-located commercial sites that show great promise and evaluates their development potential with an eye toward the proper risk-reward balance.

As a redeveloper, Urbana acquires under-performing commercial real estate properties with the goal of transforming them, via a host of value-enhancing repositioning and management strategies, into investment-caliber properties.

When Urbana has completed its development or redevelopment activities and has successfully created a stable, Class A commercial property, the firm typically sells the property to institutional investors (including pension funds, REITs, and insurance companies) interested in acquiring stable, outperforming properties.

Geographically, Urbana pursues acquisition opportunities in gateway cities and other select markets throughout the United States and is increasingly active outside of the United States. Targeted property types include office, retail, multi-family, hotel and mixed-use projects, while targeted investment avenues include the acquisition of fee simple real estate as well as underperforming and non-performing mortgages.

Urbana and its equity partners constantly monitor the pulse of both the real estate and capital markets and stand ready to act when suitable opportunities arise. Regardless of the property developed or acquired, our goal remains the same: the creation of an outperforming institutional-quality asset.
