WE ARE PLEDGED TO THE LETTER AND SPIRIT OF THE U.S. POLICY FOR ACHIEVEMENT OF EQUAL HOUSING OPPORTUNITY THROUGHOUT THE NATION. WE ENCOURAGE AND SUPPORT AN AFFIRMATIVE ADVERTISING AND MARKETING PROGRAM IN WHICH THERE ARE NO BARRIERS TO OBTAINING HOUSING BECAUSE OF RACE, COLOR, RELIGION, SEX, HANDICAP, FAMILIAL STATUS OR NATIONAL ORIGIN. There are various methods for calculating the square footage of a Unit and depending on the method of calculation, the quoted square footage of a Unit in advertising materials may vary from the square footage of a Unit as stated or described in the Prospectus and the Declaration. The dimensions of the Unit set forth on the previous page have been calculated from the exterior boundaries of the exterior walls to the centerline of shared walls, without reduction for common elements such as structural walls and other interior structural components of the building. As such, the area set forth on the previous page will be larger than the area calculated in the manner provided in the Declaration. For the area of the Unit calculated in accordance with the technical definition of the Unit, see Exhibit "3" to the Declaration. All depictions of appliances, fixtures, furnishings, counters, soffits, and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit. All dimensions are approximate and may vary with actual construction. All floor plans are subject to change. Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. Consult the Developer's Prospectus for Information regarding what is offered with the Unit and for the calculation of the Unit square footage, dimensions, and floor area.
