Mast Capital +

Developer

Mast Capital is a privately held real estate investment and development firm headquartered in Miami. Established in 2006, the firm leverages deep local market perspective and institutional quality to deliver superior execution of transformative developments. Mast Capital's emphasis is on developing thoughtfully-designed projects that enrich the fabric of local communities throughout Florida.

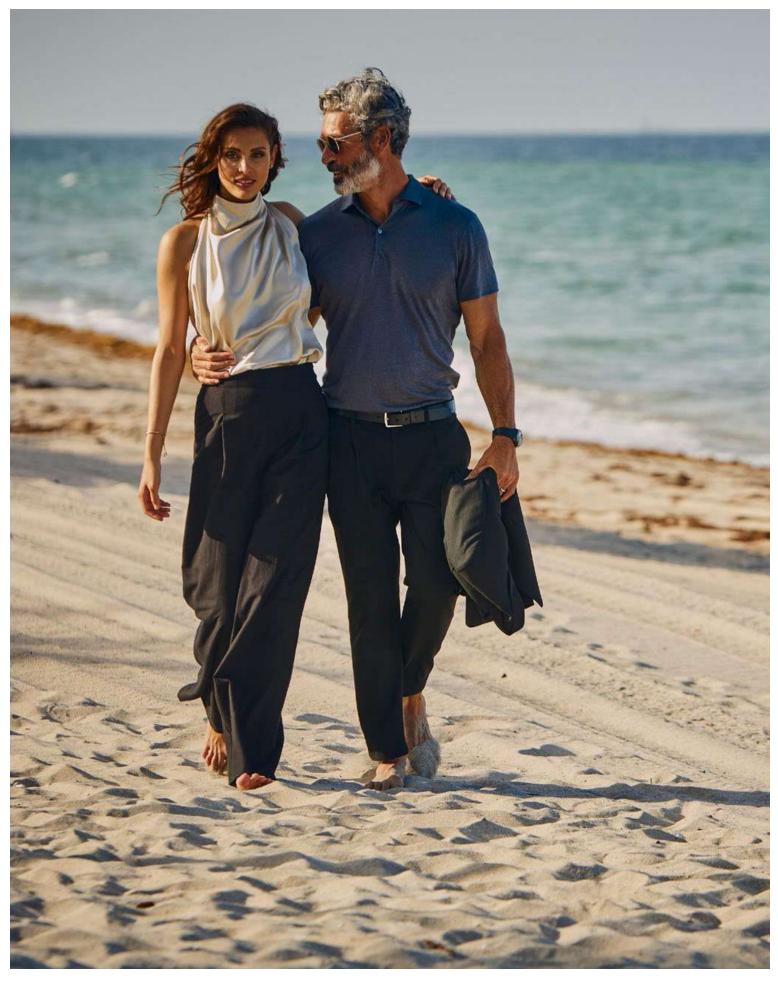

Starwood Capital

Partner

Starwood Capital Group is a private investment firm with a primary focus on global real estate. Since its inception in 1991, the firm has raised over \$65 billion of capital and currently has over \$110 billion of assets under management. In its pursuit of the most compelling opportunities globally, Starwood Capital has invested in more than 30 countries, ranging from the Americas to Europe to Asia.

Setting

In the middle of it all, but a world apart ___

Positioned on a tranquil stretch of Miami Beach, this seaside enclave overlooks the infinite blue of the Atlantic Ocean to the east, the peaceful waters of Indian Creek to the west, and an amalgam of beach and cityscapes to the north and south. Paired with unobstructed views of both the rising and setting sun, The Perigon's atmospheric location will keep most from venturing far. But for those seeking adventure beyond secluded shores, the residence's proximity to Bal Harbour, Sunset Harbor, South Beach, and the Design District means that fine dining, boutiques, and entertainment are mere moments away.

Design

Designed by OMA, founded by Rem Koolhaas

Led by OMA New York Partner Jason Long, the architecture was designed as a series of "towers," rotated to orient and enhance views from all residences toward the Atlantic Ocean, while also optimizing views of Biscayne Bay and the Miami skyline overlooking Miami Beach.

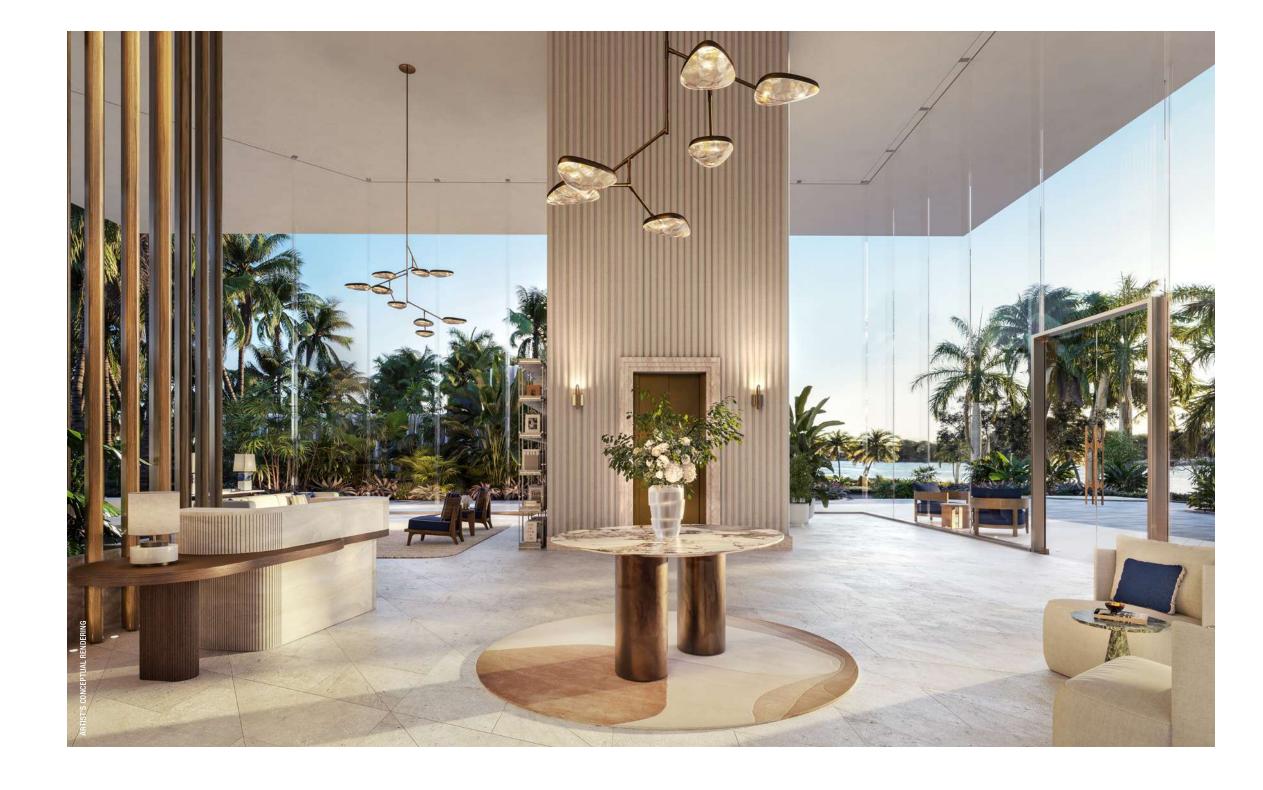

Designed by OMA, founded by Rem Koolhaas

The towers are merged and lifted into a singular form that responds to the panoramic views and frees the ground-plane below, creating the appearance that the building is only gently touching the ground. The resulting reduced footprint maximizes space for the gardens below and the design for the interlocking towers will obtain LEED Gold certification when completed. A subtle contrast in shape between the towers—organic meeting orthogonal—highlights their juxtaposition.

Elegantly proportioned with graceful details

Responding to OMA's eloquent, statement architecture by combining fresh textured interiors with a considered, layered, and timeless aesthetic, The Perigon's interior design by Tara Bernerd & Partners redefines residential living in Miami Beach.

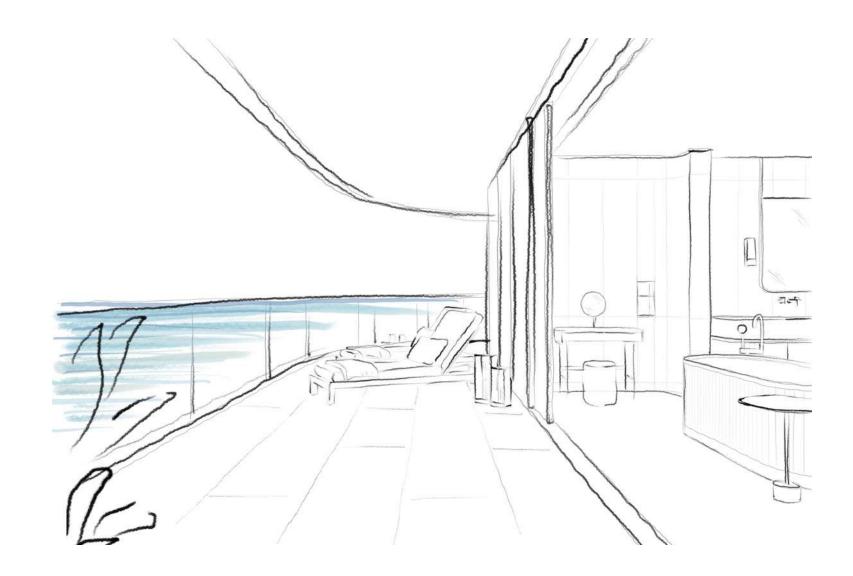

TARA BERNERD & PARTNERS ___

Interiors

Internationally renowned designer Tara
Bernerd is the founder of the interior
architectural practice Tara Bernerd &
Partners. Based in London's Belgravia,
the practice works on a global platform
and prides itself on its intelligent approach
to interior space planning and design.

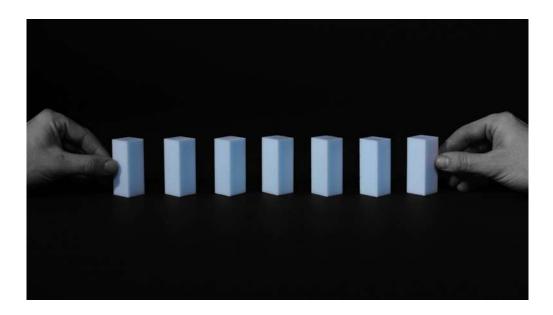

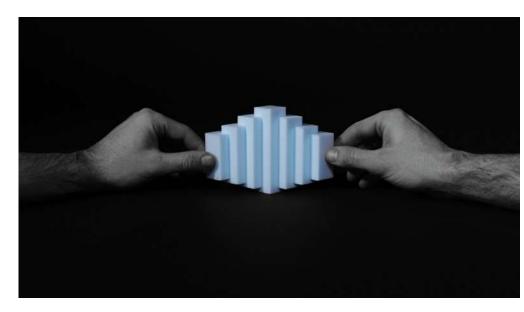

OMA, FOUNDED BY REM KOOLHAAS

Architecture

OMA is a leading international practice operating within the traditional boundaries of architecture, urbanism, and cultural analysis. Since its founding in 1975 by critically acclaimed architect Rem Koolhaas, OMA has distinguished itself as one of the most globally recognized firms of its generation. In all projects, OMA strives to go beyond the standard solution, redefine typologies, and invent new possibilities for content and everyday use.

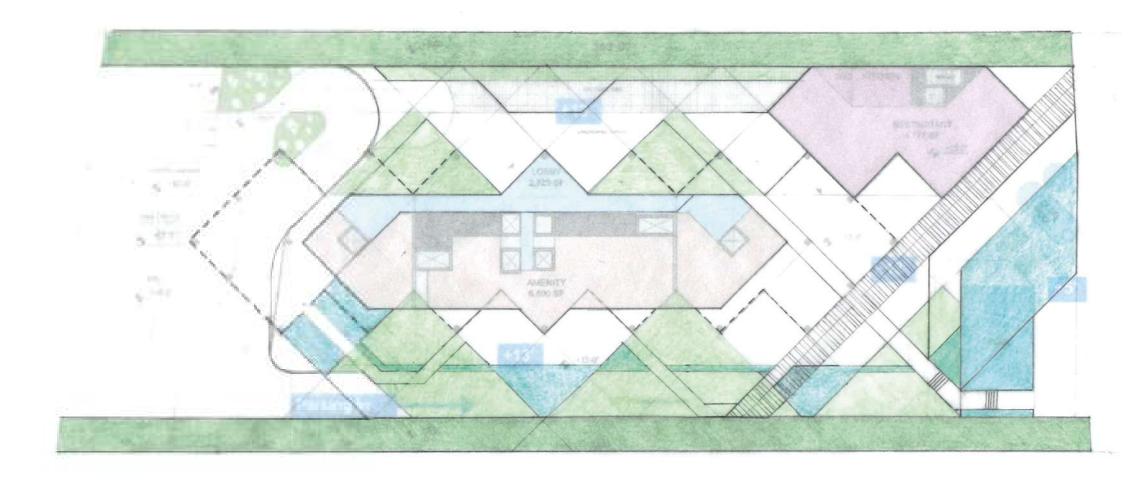

GUSTAFSON PORTER + BOWMAN ___

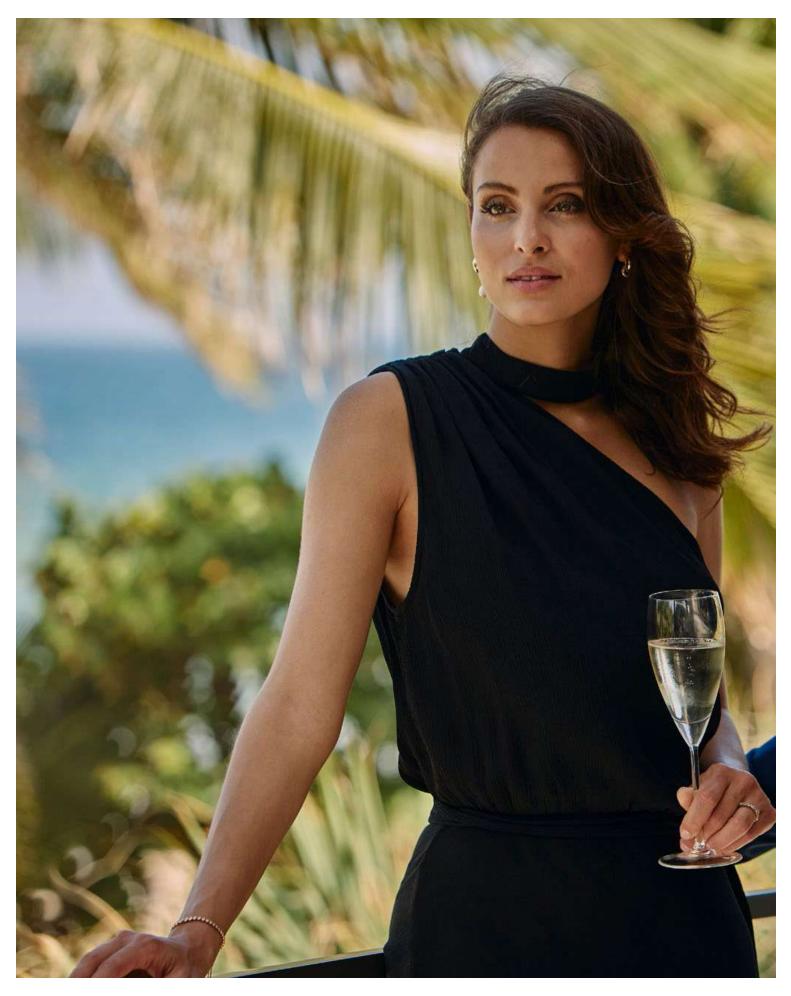

Landscape

Gustafson Porter + Bowman is an award-winning landscape architecture practice that has received public acclaim for creating authentically engaging spaces within a global portfolio. The development of their design work has continuously pushed the boundaries of what constitutes the field of landscape design and is known for its sensual and sculptural features.

Lifestyle

Where every day delights the eye and soothes the senses

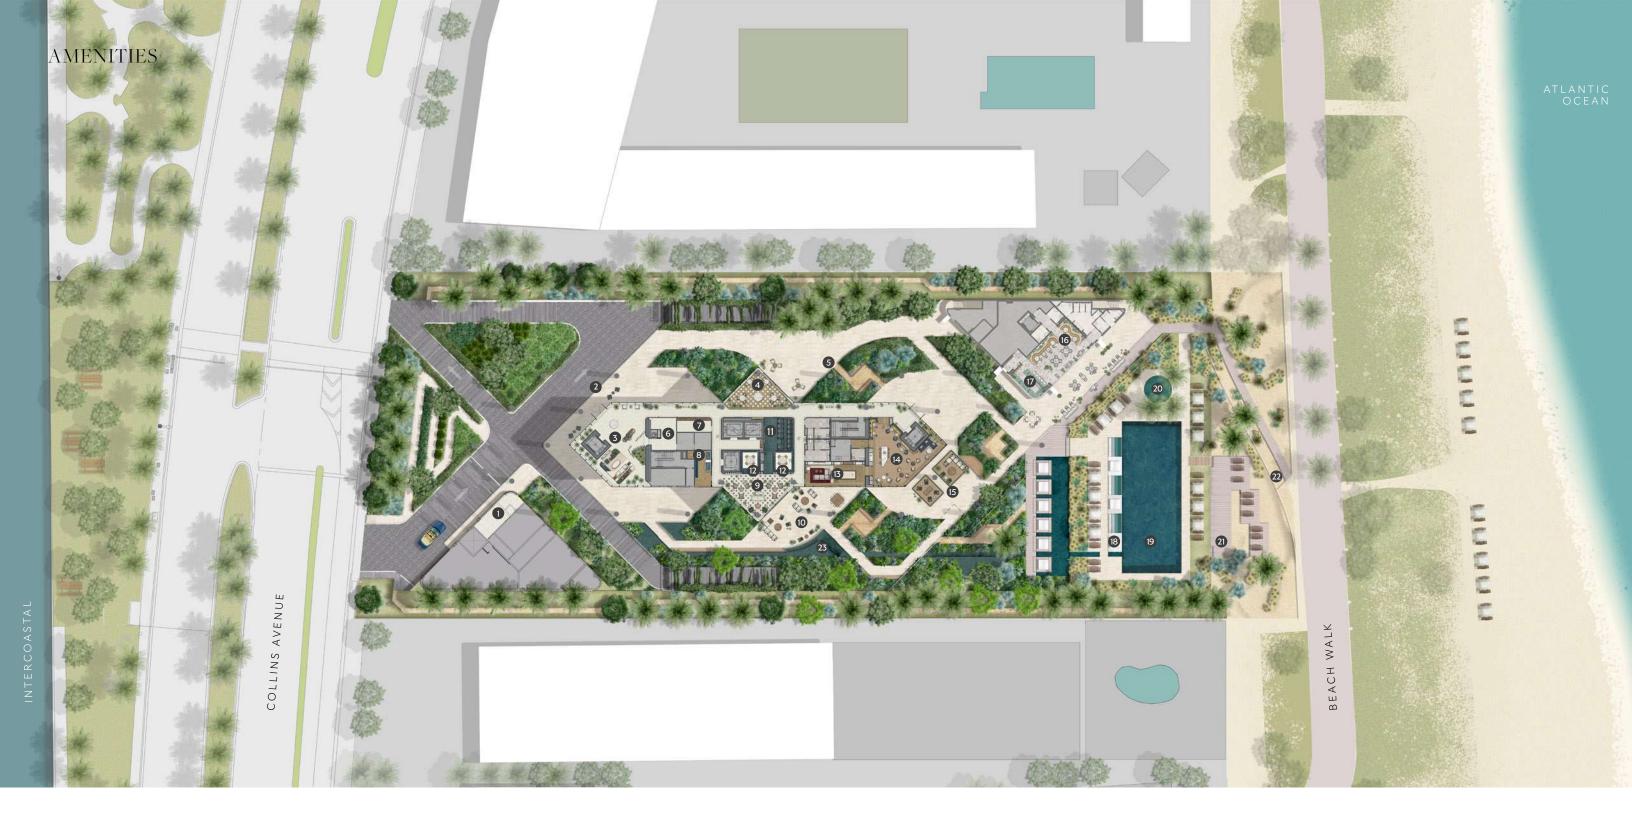

The Perigon was designed to overlook the endless expanse of the Atlantic and storied sands of Miami Beach, and to offer its residents a chance to live in them. Envisaged with a unique indoor-outdoor experience, this waterfront dwelling features an array of luxuries that blur the bounds of interior and exterior space, allowing occupants to unlock the land, water, and surrounding nature from the comfort of their own home.

ORAL REPRESENTATIONS CANNOT BE RELIED UPON AS CORRECTLY STATING THE REPRESENTATIONS OF THE DEVELOPER. FOR CORRECT REPRESENTATIONS, MAKE REFERENCE TO THIS BROCHURE AND TO THE DOCUMENTS REQUIRED BY SECTION 718.503, FLORIDAS STATUTES, TO BE FURNISHED BY A DEVELOPER TO A BUYER OR LESSEE. These materials are not intended to be an offer to sell, or solicitation to buy a unit in the condominium. Such an offering shall only be made pursuant to the prospectus (offering circular) for the condominium and no statements should be relied upon unless made in the prospectus of in the applicable purchase agreement. In no event shall any solicitation, offer or sale of a unit in the condominium be made in, or to residents of, any state or country in which such activity would be unlawful. This project is being developed by \$533 Collins Acquisitions, LP, a Delaware limited partnership, which was formed solely for such purpose. Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the area of the Unit, determined in accordance with these defined unit boundaries, is set forth on Exhibit '5' to the Declaration. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room were a perfect rectangle), without regard for any cutousts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width
