THE TEAM

A Revolutionary Collaboration

A visionary team carefully curated for the close-knit global community with the world’s highest standards.

Developer: Riviera Horizons

Riviera Horizons is a multi-faceted real estate firm, led by founder and CEO Mikael Hamaoui. As an enhanced brokerage and development firm, Riviera Horizons is dedicated to curating exceptional living and investment opportunities for our discerning clientele. With years of experience and a deep understanding of the evolving trends in the luxury real estate market, we are dedicated to delivering unparalleled quality and value to our clients. At the heart of Riviera Horizons lies a vision to connect the well-connected. We believe in creating spaces that transcend mere structures, fostering connections and communities where individuals thrive. Whether it's crafting breathtaking residential condominiums or facilitating lucrative commercial ventures, we aim to bridge aspirations with possibilities.

Lifestyle Brand: Pagani Arte

Pagani Arte originates from the creative need to expand the Pagani experience from the automotive world into new horizons in interior design, embracing a multitude of fields, from furniture to aviation to advanced engineering and design projects. Its bespoke creations strive to achieve the perfect balance between functionality, aesthetics, craftsmanship, and technical innovation. The company’s philosophy is rooted in the ideal of Leonardo da Vinci, who stated that Art and Science are two disciplines that can walk hand in hand.

Project Management: Fortis Design + Build

Fortis Design + Build is a vertically integrated development firm founded in 2015 to create award winning mixed-used projects within the urban core. We act as fee-based developers providing pre-construction development services, construction management, general contracting, design-build consultation services, and private equity options. By combining in-house expertise in design, development, and construction, we enable creative architectural and programming solutions with value pricing. The principals, David Polinsky and Andrew Lenahan, have completed a wide variety of new construction and adaptive re-use projects in South Florida. With a focus on innovative design and quality construction, Fortis builds better projects that respond to the surrounding cultural context, inspire the creativity of their occupants, and contribute to the development of thriving communities.

Interior Design: A++

A++ human sustainable architecture is the internationally recognised studio through which A++ GROUP communicates its work. “WE ARE HUMAN” is the philosophy of A++. “HUMAN SUSTAINABLE ARCHITECTURE” is its mission. Therefore, A++’s approach is inspired by man and his main activities, such as socialising or living. These fundamental aspects of human living will be transposed to the physical space, thinking of the built as an indispensable tool to reach the condition of well-being. In other words, the design of our lived space is significant because it is a representation of our subjectivity: how we live is a sign of how we think, feel, and imagine the world. By relating design to the human being, A++ accepts a challenge other than that of a comfortable spatial arrangement; it goes beyond thinking of interior space as a matter of taste and decoration. The interior becomes a matter of representation: it is a model of our subjective life that in turn allows us to better understand the world we live in. Each project is designed to fit in a sustainable way in the context of reference, to match the desirable elements of a location's current character or, in the case of precincts undergoing a transition, the desired future character and that is what makes each realization so unique.

Architecture: Revuelta Architecture International

Luis O. Revuelta, AIA, principal at Revuelta Architecture International, P.A., began his career in 1972 and received his bachelor's degree in architecture from the University of Miami. He has since overseen the design and coordination of some of the most significant mixed-use, urban developments in the area. His passion for sketching skylines at early age came to fruition as his exquisitely designed buildings have enhanced and defined Miami’s own skyline. As principal in charge of design, his philosophy was built upon three pillars: steadfast commitment to providing clients with design quality and balance, attention to detail, and on-time /on-budget delivery. It is these tenets that have been the cornerstone of Revuelta Architecture International’s growth and success. Revuelta Architecture International, P.A., is a full-service architecture and planning firm, headquartered in historic Coconut Grove, FL. The firm’s association with top local and national developers has resulted in the successful evolution of functionally sound and aesthetically significant projects in South Florida and beyond.

Landscape Architect: L&ND

L&ND is a full-service environmental planning, landscape architecture, exterior living, and design practice focused on creating bespoke outdoor environments for boutique hotels, private residences, luxury resorts and condominiums, mixed-use and commercial, ecological projects, urban zones, and public open spaces. Our work is realized through a dedicated process of deep analysis and site-specific study that considers the rich context of environmental, geographic, cultural, social, historic, and economic factors unique to each project and client. L&ND is committed to working with clients in the most challenging and interesting environments, at any scale, across the world.
