THE EPITOME OF SOPHISTICATED SOUTH FLORIDA LIVING

Designed for the modern family, ORIGIN offers large floor plans with flexible layouts and unit sizes. With floor-to-ceiling windows and expansive water views, the building aesthetics evoke sophisticated elegance.

The setting by the renowned interior designer Carla Guilhem, in collaboration with the firm ARTEFACTO, is one of the main reasons for the great appeal of ORIGIN. Guilhem's distinctive style, her ability to combine elements and her meticulous eye for detail, is appreciated in every corner of the settings, from common spaces to individual apartments. Guilhem's decoration becomes a reflection of the good taste and quality that characterize this exceptional residence.

ARTEFACTO decodes a lifestyle that is highly regarded amongst the biggest names in architecture and décor. Behind every accessory and piece of furniture is a carefully thought-out concept that aims to establish connections between the home and the owner.

EXCELLENCE SPANNING THREE GENERATIONS

The word Artefacto is practically synonymous with high-end furnishings and home staging. More so, it decodes a lifestyle that is highly regarded amongst the biggest names in architecture and décor. Behind every accessory and piece of furniture is a carefully thought-out concept that aims to establish connections between the home and the owner.

This attention to detail began in 1976, when Albino Bacchi, patriarch, launched the brand with a collection made of renewable natural fiber pieces. Artefacto continues to combine technology and craftsmanship under the second generation, Paulo Bacchi, with quality, elegance and impeccable finishes that make the furniture and accessories true objects of desire. Paulo's twin sons, Pietro and Bruno, continue the family tradition of excellence into the third generation.

Paulo, Pietro, Albino and Bruno Bacchi

The Artefacto aesthetic is highly coveted by renowned architects and designers. Each of their pieces is crafted with utmost care and attention to detail, striving to create a bond between the home and its inhabitants.

VISIONARIES TRANSFORMING MIAMI ONE BUILDING AT A TIME

INNOVATIVE PROJECTS THAT SET TRENDS

What began as a boutique project, with only 21 apartments in the commune of Ñuñoa, Santiago de Chile, would become the starting point of a successful career marked by innovation and a visionary spirit that, to this day, promotes each one of the ideas and projects of VDA.

With more than 22 years of experience in the real estate market in Chile, VDA has been building its history on the solid foundation of excellence throughout the country. The key to its success lies in constant and rapid learning, the ability to adapt and stay ahead of its competition and always maintain the highest quality standard in each product it launches on the market.

In this way, emblematic projects such as the Radisson La Dehesa and Radisson Concepción hotels established a standard thanks to the company's pioneering vision, by choosing innovative locations in sectors with little development until then, outside of Santiago, the capital of Chile.

Thanks to this way of approaching the market, many VDA projects marked the path to follow for other developers in the industry. Some of those projects are:

- Hotel Radisson Pettra, Concepción
- Hotel Radisson Pettra La Dehesa, Santiago
- Edificio Plaza el Cobre, Rancagua
- Edificio Almar, Concón
- Edificio Rakun, Pucón
- Edificio Vista el Valle en La Dehesa, Santiago
- Edificio Coventry 21, Ñuñoa, Santiago
- Edificio Santa Rosa del Mar, Coquimbo
- Edificio Bio Bio Centro, Concepción

VDA PROJECTS MIAMI

The history of VDA is marked by each of its projects, which have been a fundamental step on a path that continues towards new challenges and crosses borders.

Below we present the most iconic projects in Miami.
