

PROJECT OVERVIEW

International Italian fashion brand Diesel embodies the rebellious energy of Miami’s Wynwood neighborhood with the launch of the brand’s first luxury residential condominium project, made “only for the brave,” with development partner Bel Invest. Diesel Wynwood Condominium will rise eight stories and be comprised of 159 residences. Built for boldness, a vibrant sculptural façade will unapologetically meet the streetscape, ushering a new era of living based on wellness, creativity and unconventional enjoyment. Effortlessly eco-conscious and supporting urban sustainability, the building will boast LEED and WELL certifications. Inside are memorable, move-in-ready residences curated by Diesel Living, in addition to anti-ordinary amenities made for peace and play.

Defining what it means to live audaciously, Diesel Wynwood Condominium is a powerful platform for a daring and authentic life. With spaces that cultivate community and inspiration, it is never boring. Ever.

BUILDING INFORMATION

BUILT FOR BOLDNESS

- Mezzanine plus 8-story building in Miami’s Wynwood core
