

THE PERIGON

MIAMI BEACH

Building Overview +

An expanse of 200 linear feet of pristine private shoreline

A comprehensive amenity program offering the best of beachfront living

73 signature OMA - designed homes oriented to provide views of the Atlantic Ocean from each residence

Two- to four-bedroom residences ranging from 2,100 to 6,700 square feet

Gold level LEED certification

Designed by OMA, founded by Rem Koolhaas ✦

Led by OMA New York Partner Jason Long, the architecture was designed as a series of “towers,” rotated to orient and enhance views from all residences toward the Atlantic Ocean, while also optimizing views of Biscayne Bay and the Miami skyline overlooking Miami Beach.

The towers are merged and lifted into a singular form that responds to the panoramic views and frees the ground-plane below, creating the appearance that the building is only gently touching the ground. The resulting reduced footprint maximizes space for the gardens below and the design for the interlocking towers will obtain LEED Gold certification when completed. A subtle contrast in shape between the towers—organic meeting orthogonal—highlights their juxtaposition.
